

## Scrubber driers walk-behind

### BD 55/60 W Ep

#### Overview

Walk-behind scrubber drier with a working width of 55 cm, a capacity of 60 l fresh and 60 l waste water tank for a wide range of applications.

Order no. 1.384-251.0

#### Standard accessories

Disc brush  
 , Mains operation  
 , Tank-in-tank system  
 , Traction motor  
 200 W

#### Technical data

Working width, brush mm	550
Working width, vacuum mm	850
Tank capacity fresh water l	60
Tank capacity dirt water l	60
Max. area performance m <sup>2</sup> /h	2200
Brush rotation speed rpm	240
Brush contact pressure g/cm <sup>2</sup>	35-40
Frequency Hz	50

## Scrubber driers walk-behind

### BD 55/60 W Ep

#### Description

Cleans floors like tiles, marble, rubber floors, linoleum or PVC quickly and thoroughly.

The brush pressure is adjustable on the requirements of the surfaces or of the level of soiling.

Equipped with a traction motor for greater operator comfort. It is adjustable continuously up to 6 km/h.

The control panel is user-friendly because it is simple to program the most important settings. The display shows either the travel speed, operating hours, state of charge of the battery or the brush contact pressure.

The low weight of the plastic chassis and the wide sweep of the suction beam make the machine exceptionally easy to manoeuvre (1.6-metre turning circle) around corners and obstacles. The ergonomic design of this floor scrubber permits relaxed and fatigue-free operation.

Dry vacuuming facility on brush head for trouble-free floor polishing. The dust produced during crystallisation and polishing is picked up in a single operation.

#### Application

Ideal for hard and resilient floors, e.g. in supermarkets, hospitals, sports arenas, for contract cleaners, trade or small industrial companies.

#### Features & Benefits

Attractively designed and compact double-wall tank-in-tank-housing.  
Easy manoeuvrable machine.

Contra-rotating disc brushes.

Provide an outstanding cleaning performance even on different kinds of floor surfaces. No cleaning stripes or marks remain on the floor because the cleaning solution is transported to the middle (between the two disc brushes). Easy and convenient operation.

Newly developed large drain outlet.  
Quick cleaning of the fresh water tank.

Newly developed suction channel integrated in the housing cover.  
Reduces odours and thus takes care for a long pleasant operation.

Only a few, very good understandable operation elements.  
No linguistic proficiency necessary!

The suction channel cover can be removed without any effort.

## Scrubber driers walk-behind

### BD 55/60 W Ep

The suction channel is cleaned very quickly which provides a constant suction performance.

Very light robust plastic frame.

For easiest manoeuvring and lower battery capacity consumption (approx. 2.5 h).

With new integrated fresh water level control.

For a lower consumption of detergent-agents and drinking water.

#### Disc Brushes for BD

##### Disc brush, very soft, 300 mm

white, for maintenance cleaning or polishing

Order no. 6.906-655.0
