Power rating, pump (W)	-
Power rating brush (W)	60
Weight (kg)	5.7
Dimensions (L x W x H) (mm)	350x260x835

Details

Description

The PW 30/1 power brush has been developed as an optional accessory for the Puzzi 200 to intensify the deep-cleaning process. This power brush enhances the normal cleaning performance by about 35 %.

It enables you to spray, brush and vacuum in a single pass.

With the larger working width of 315 mm (235 mm for PW 10) which means a 25 % higher area performance, the PW 30/1 is a clearly more effective cleaning system with outstanding cleaning results in connection with Puzzi 200.

Application

1. Spray

Water and cleaning solution penetrate the pile right down to the backing to dissolve even stubborn stains.

2. Brush (main wash)

The roller brush opens carpet pile, dislodges the dirt and washes it away thoroughly but gently.

3. Vacuum (dry)

Dirt water is vacuumed away at the same time through the suction duct. The carpet is dried in this process. Residual moisture content is pretty low.

Features & Benefits

- * Larger working width of 315 mm, compared to 235 mm of PW 10 - consequently a 25 % better area performance
 - * Brush rotation speed on carpet (rpm) 1800 l/min
 - * Easier in handling, due to wider base
 - * Reduced housing height compared to PW 10
 - * Transparent front window for visual control of dirt water
