Power rating, pump W	230

## Spray-extraction cleaners

### puzzi 400

#### Description

Fresh 45 l water tank with filter element allows long periods of operation and protects the pump from contamination. Robust, compact housing made of durable plastics. Two large wheels and two castors for excellent manoeuvrability. Pushbuttons for spraying and extraction are located on control panel– simple to operate. Easily removed transparent suction dome enables recovery performance to be checked at a glance.

18-litre dirty water tank simply lifts out.

#### Application

For medium-sized and large areas in commercial and industrial applications.

#### Features & Benefits

15m long electric cable

Enables large working radius in big rooms without switching from one power outlet to another

18-litre dirt water tank

Removable, easy to carry and to empty

Accessory holder for the cable and floor nozzle

Comfortable transportation, tidied up storage

Compact housing made of robust polypropylene plastic with grip

Shock proof, unbreakable, rust proof, lightweight, easy to carry

Exchangeable fan protection filter

Fan is protected from dirt damages

National and international check release

High safety and quality standard

Power outlet for the PW 20 connection

Increases the area performance of about 30-50%

Safe dry running oscillating piston pump

High-performance, maintenance-free, trouble-free

Tested continuous running, two-stage bypass suction fan

High-performance revertive suction power, little residual moisture

Transparent suction dome

Control of the revertive suction power
