Details

Description

The fresh water tank with filter element allows long periods of operation and protects the pump from soiling. The robust, compact housing made of durable plastics makes the unit lightweight and easy to carry. Two large wheels and two castors for excellent manoeuvrability. Pushbuttons for spraying and vacuuming mode are conveniently positioned on top of the unit. Easy removable, transparent suction dome enables to check recovery performance at a glance. Service-friendly, rubber-mounted pump and fan module. The 9 litre dirt water tank is simply detachable.

Application

For medium-sized areas in commercial and private applications.
