

Wet and dry vacuum cleaners

NT 65/2 Eco Tc

Overview

The NT 65/2 Eco TC is a powerful, two-motor wet and dry vacuum cleaner for professional applications. Flat pleated filter is cleaned efficiently by air pulse system for almost constant suction power at all times.

Order no. 1.667-141.0

Standard accessories

Suction hose
 4 m
 , Metal suction tube, 2 x 0.5 m
 , Filter bag
 Paper, Wet and dry floor tool
 360 mm
 , Crevice tool
 , Drain hose (oil resistant)
 , Auto shutdown when max. level is reached,
 Eco filter system
 , Flat pleated filter
 PES, Tilting chassis
 , Power Filter Clean
 , Bumper bar, Push handle, Safety class
 II, Caster with brake, Maintenance -free suction
 fans 2 piece

Technical data

Air flow rate l/s	2 x 56
Vacuum mbar /kPa	235/23.5
Container capacity l	65
Max. intake performance W	Max. 2750
Standard nominal width mm	40
Length of cord access. m	10
Sound pressure level dB(A)	74
Container material	Plastic
Frequency Hz	50-60

Wet and dry vacuum cleaners

NT 65/2 Eco Tc

Description

The NT 65/2 Eco TC is a powerful wet and dry vacuum cleaner with an exclusive Power Filter Clean system for constant high suction power and long periods of uninterrupted operation.

This unit features a compact fan housing with a separate filter cover for easy access to the large flat pleated PES filter. The filter is cleaned efficiently with the aid of the Power Filter Clean function (air pulses activated via remote control lever) to ensure high suction power at all times, longer periods of uninterrupted operation and a long filter life.

The NT 65/2 Eco TC is equipped with an electronic level monitor which shuts off suction when maximum capacity is reached during wet pick-up to prevent overflow. A tilting facility enables the robust plastic container to be emptied without causing backache. After wet pick-up, the container can also be emptied by means of the built-in oil-resistant drain hose.

The clip system ensures simple and quick accessory changes. There are on-board holders for the hose and accessories as well as a large tray-like surface on top of the unit for parking tools. Two large wheels and two castors, one with brake, make the NT 65/2 Eco TC highly mobile.

Application

This wet and dry vacuum cleaner is a particularly user-friendly unit suitable for universal applications in the crafts and trades, e.g. building and allied trades, automotive workshops and contract cleaners as well as the metal-working industries

Features & Benefits

High grade rubber-insulated power cord
Very durable, non-kinking and abrasion resistant. For tough applications and a long service life

Housing made of impact resistant plastics
Low weight for effortless operation. Withstands high loads and knocks.

Large flat tray for tools on motor head
Tools (portable drill, orbital sander) can be put down safely and are always within reach without stooping

Oil resistant drain hose standard on all machines
Longlife hose, resistant to aggressive media, for easy emptying of full container.

On-board holders for power cord and accessories
Avoid soiling and damage. User has everything within easy reach.
